PROFESSIONAL SUMMARY

Computer Science recently graduate with a strong foundation in software development, Artificial Intelligence, and backend technologies. Experienced in developing web applications using HTML, CSS, JavaScript, React, Python, FastAPI, Java, C++, SQL, and database management systems. Skilled in object-oriented programming, REST API development, problem-solving, and building scalable applications. Passionate about Artificial Intelligence, Machine Learning, and modern software engineering, with a strong desire to contribute to AI-driven solutions while continuously learning emerging technologies. A quick learner, collaborative team player, and adaptable professional seeking an opportunity to grow as an AI Developer or Software Engineer in a challenging and innovative environment.

TECHNICAL SKILLS

Languages & Tools: HTML5, CSS3, JavaScript (ES6+), React, next.js, typescrip, Git, GitHub, TaiwindCss, python, SQL, python, Docker, Api dog, postman, java, Fastapis, SQL, Sqllite, Postgresql and database management system .

Frameworks & Libraries: React.js, (Redux, React Router, API, Props, States), React.js (component development), Bootstrap, Tailwind CSS.

Other: Figma to Code Conversion, Pixel-Perfect Implementation, Responsive Design, State Management, CrossBrowser Compatibility, SEO Basics, UI/UX Fundamentals.

EXPERIENCE

Full Stack Developer— Repla technologies **(June 2025 – Present)**

- Built responsive front-ends for client websites, ensuring cross-browser compatibility and mobile-first performance
- Developed scalable SPAs using React.js with dynamic routing (React Router) and state management (Redux).
- Converted high-fidelity Figma designs into pixel-perfect, accessible UIs with clean HTML/CSS and JS.
- Used Git/GitHub in an agile team for code reviews, feature branching, and issue tracking.
- Worked with **Python, FastAPI, React.js, JavaScript, SQL, and Database Management Systems** to develop and maintain web applications. Built RESTful APIs, integrated frontend with backend services, and optimized application performance.
- **Python & React Developer – Repla Technology Pvt. Ltd.** *(1 Year experience).*

PROJECTS

Shopping System – Web Development

- Built a Shopping System using HTML, CSS, and JavaScript.
- Implemented core features like product listing and add-to-cart functionality .

Real-time chat & communication platform

- Developed a real-time chat application using **React and FastAPI**, featuring one-to-one messaging, WebSockets, online/offline status, typing indicators, message history, read receipts, notifications, and media sharing.
- Implemented **WebRTC-based audio/video calling** with STUN/TURN, and integrated **PostgreSQL, Redis, Celery, Docker, and Nginx** for scalable backend communication and background processing..

University Management System, Tic Tac Toe Game – DBMS

- Developed a University Management System with database integration for efficient data handling.
- Created a Tic Tac Toe game implementing basic logic and user interaction features.

Car Game Project using GUI, Python, and C++ – HCI/Graphics

- Developed a Car Game using GUI with Python and C++ for interactive gameplay. Implemented graphics, user controls, and basic game mechanics for better user experience.

E-Commerce Management System (FastAPI + React)

- Developed a full-stack E-Commerce Management System using **FastAPI** for the backend and **React.js** for the frontend.
- Implemented secure **JWT Authentication** with user registration, login, and role-based authorization.
- **Technologies:** FastAPI, Python, React.js, JavaScript, SQLAlchemy, SQLite, Pydantic, JWT Authentication, REST APIs, HTML, CSS, Git, GitHub.

EDUCATION

Pir Mehr Ali Shah Arid Agriculture University Rawalpindi **2022 - 2026**

Bachelors of science in Computer Science

Punjab College Hasilpur **2020 - 2022**

Intermediate in Computer Science (ICS)
